

Children: Let's have fun in the summer vacation.

Parents: Why not a fulfilling and meaningful summer vacation?

## How can both wishes be satisfied?

### Tip 1 Write down a summer bucket list

Ask your child to write down the activities they want to do during the summer vacation. Review the bucket list together to understand each other's views.

### Tip 2 Talk through the schedule

Discuss the activities to do in summer vacation with your child. Remember to leave some time-slots blank for your child to arrange on his/her own.

### Tip 3 Explore different types of activities

Parents can arrange the following types of family activities:

- ✧ Have a picnic, go hiking, see the sunset and go stargazing.
- ✧ Play board games or chess together to enjoy the fun time!
- ✧ Photo-shoot on the same theme and appreciate each other's photos.
- ✧ Revisit places where you grew up, share old photos and growth stories.
- ✧ Teach your child to do simple repairs or cook a simple dish.
- ✧ Plant flowers or take care of pets together.

1. Outdoor Activities

2. Brain Teasers

3. Creativity Boosters

4. Nostalgia

5. Life Skills

6. Cultivation and Breeding
